What's been your most memorable experience with Standard Chartered?

My most memorable experience was **connecting with IGs from different countries** through the IIP (International Induction Programme). Through the global one-month training programme, I was able to gain diverse views by sharing opinions and experiences with colleagues in the SCB network and create lasting relationships with them.

What do you love most about your role?

What I love most about my role is **how involved I am with the industry**. The real estate market is incredibly dynamic, and a significant part of my job involves interacting with major players in the market to make a deal happen. There is still a lot to learn, but I'll never be able to forget what I have learned from the first time I closed a deal in the entirety of its lifecycle.

Being able to deliver up to date market information to both RMs and clients was both encouraging and challenging as I was directly making an impact by **providing value to our clients** – it is a very motivating experience.
